

Superior HVAC Equipment!

Our Suppliers

Aligned with the best, most reliable suppliers in the industry to ensure that our customers are completely satisfied with the products that we offer. We carefully choose and nurture our partnerships based on their ability to add unique value to our solutions. Our solid relationships with these suppliers have developed based on trust, reliability and quality equipment.

For an HVAC solution that includes the best products in the industry, and puts control back in your hands, contact us today.

"For the past 25 years, O'Dell has given our firm the support we need to produce high quality designs and drive successful projects. Their product and design expertise combined with their commitment to making every project a success is exactly what we look for in a supplier."

Dave Thompson
P.Eng., LEED AP, Walter Fedy

Industry leading suppliers.

Air Handling & Comfort Systems

Innovent: Offering unlimited possibilities in custom air handling, from a few hundred to over 200,000-cfm. Exceptional refrigeration capabilities to provide packaged systems from 5 to 400 tons. www.innoventair.com

Aldes: ALDES Canada, leader in ventilation solutions! Complete line of heat and energy recovery products from 100 to 10,500-cfm. Packaged and custom equipment available. www.aldes.ca/leader

Bousquet: Is your source for: Indirect and direct fired make-up air and heat-vent units, packaged cooling option, custom integrated heat recovery units, and much more. www.bousquet.ca

Valent: Highly configurable make-up air (MUA), dedicated outside air (DOAS), heat and energy recovery equipment. Excellent refrigeration capabilities. www.valentair.com

Krueger: When you don't need the complexity and cost of a custom air handling unit! Krueger KAH gives you selection flexibility and performance of a custom system with the reduced lead times, selection turnaround, easy specifications and cost-savings typically found in catalogued air handlers. www.krueger-hvac.com

Building Performance Equipment: Modular air-to-air heat recovery ventilators capable of up to 90% thermal efficiency. www.lowkwh.com

LG: Extremely efficient MultiV variable refrigerant flow systems from 3 to 30 tons. With the Mini, Plus and Sync lineup, LG meets the requirements of any project! www.lgvrf.ca www.lgdfs.ca

Humidity Control

Condair: Humidification products for the HVAC industry. Offering electric, gas, livesteam and airfog humidification technologies to suit any application. www.humidity.com

Dry-O-Tron: Dehumidification products for any environment, including; pools, arenas, wastewater treatment plants, make-up air and many others. www.dry-o-tron.com

NovelAire: Unique desiccant dehumidification equipment. Great for 100% outdoor air and low temperature applications. www.novelaire.com

No-compromise HVAC Solutions

Air Distribution & Control

Krueger: Excellence in air management, manufacturing; grilles, registers, diffusers, air terminal units and fan coils.
www.krueger-hvac.com

EffectiV HVAC: EffectiV 's unique high induction ceiling air diffusers allow Engineers to answer specific architectural and performance needs.
www.effectiv-hvac.com

Prihoda: Fabric ducting solutions. Great solution for exposed ducting where aesthetics are a concern.
www.prihoda.com

iac Acoustics: Since 1949, a leading manufacturer of HVAC silencers, acoustic louvres & sound barriers. www.iacacoustics.com

Gripple: Seismic bracing systems.
www.gripple.com

Ventex / Alumavent: Canada's premier manufacturer of louvers, dampers and fire dampers. www.ventexinc.com

Fans & Ventilators

PennBarry: AMCA certified commercial and industrial fans, Variable frequency drives. Commercial ERVs and HRVs from packaged indoor solutions to a premium offering with heating and cooling options.
www.pennbarry.com

Plasticair

Plasticair: AMCA Certified FRP Fans – Centrifugal/Axial Laboratory Exhaust High Plume Dilution Systems (SKYPLUME). Perchloric acid fume hoods and ventilation equipment. www.plasticair.com

Plastec: Comprehensive line of high quality corrosion resistant polypropylene and stainless steel fans and blowers. www.plastecvent.net

Kitchen Ventilation Systems

Spring Air
Solutions for Energy Savings

Spring Air Systems: Specializes in commercial kitchen ventilation solutions, focusing on economical and energy efficient ventilation systems.
www.springairsystems.com

Ampco: Quality, multi-use, pressure stack chimney exhaust systems for commercial applications, including generators and kitchen grease duct.
www.ampcostacks.com

Complete solutions. Flexible services.

Indoor Air Quality

Enverid: "Smart Scrubber" that replaces outdated, inefficient and costly ventilation methods. The HLR reduces ASHRAE prescribed ventilation requirements by cleaning the indoor air using patented reusable sorbents. www.enverid.com

Tridim: Complete line of HVAC filtration products ranging from cleanroom solutions to pre-filters. www.tridim.com

Ozonetech: Ozone generation for odor control and disinfection in both air and water treatment. www.ozonetech.com

Controls

Belimo: World's widest range of products for the motorized operation of final controlling elements in HVAC systems - for air and water systems. www.belimo.ca

Critical Environment Technologies: A complete line of hazardous gas detection instruments. www.cetci.com

Source Capture

Plymovent: Source capture ventilation products for fire stations, garages, labs and critical applications. www.plymovent.com

Venting

Heatfab: Venting products and systems for special gas vent applications. www.heatfab.com
