

WhisperAir Repair™

Advanced air purification and odour elimination

 Hotels & Hospitality

 Light Commercial

 Single & Multi-Family Homes

WhisperAir Repair™
PURIFIED BY 

WhisperAir Repair™

The air you breathe should be one of the purest elements going into your body. WhisperAir Repair™ by Panasonic ensures it is.

Until now, our exclusive nanoe™ X air purification technology was available only in Panasonic HVAC systems. Now, nanoe™ X is available in WhisperAir Repair, a compact ceiling-mount air purifier that keeps indoor air clean and fresh around the clock.

✔ UPGRADE ✔ REMODEL ✔ NEW CONSTRUCTION

Whether updating old ventilation fans, remodeling entire spaces or building new construction, bolster your ventilation strategy with WhisperAir Repair for better indoor air quality and healthier living.

WhisperAir Repair makes healthy indoor air and healthy living a breeze

KEY FEATURES

- Ceiling mount purification device utilizes patented nanoe™ X charged water particle generation technology to purify contaminated air
- Inhibits growth of allergens and breaks down hazardous substances for improved occupant health¹
- Quietly deodorizes and removes unwanted smells for a fresher, cleaner indoor environment¹
- Maintenance free with no filters to change, no duct work required
- Ideal for light commercial applications, hotels, educational facilities, elevators, subway cars, restaurants and other public spaces²
- Great for use in residential settings including living rooms, bedrooms, basements, closets and mud rooms

Product details and compliance

- Purification device provides effective odour and allergy reduction
- Easily mounts into virtually any ceiling and can use existing wiring³
- Energy efficient, space-saving design
- Stylish paintable low-profile grille blends with any room aesthetics
- Certified by Intertek for UL/CSA safety standards
- Complies with California Air Resources Board (CARB) for electrical safety and ozone requirements specified in Title 17, California Code of Regulations, subchapter 8.7 "Indoor Air Cleaning Devices."
- Panasonic factory is registered as an EPA establishment that produces a pesticide device; factory EST ID: 93165-MEX-1

THE NANOTM X ADVANTAGE TO HEALTHIER INDOOR LIVING

nanoeTM X inhibits airborne and adhered pollutants & odours

Panasonic nanoeTM X is the next generation of our exclusive nanoeTM air purification technology for healthier indoor air quality and healthy living in every space. nanoeTM X is generated from moisture in the air that contains highly reactive components known as hydroxyl (OH) radicals, which have been proven effective at suppressing airborne pollutants and odours.

NanoeTM-X are Hydroxyl Radicals (OH) inculcated in water, giving them a longer life span (up to 10 min*). Their size is 5-20nm** which allows them to penetrate fabrics thoroughly and reach every corner of the room in order to inhibit pollutants and allergens.

What is **nanoeTM**?
nano-technology + electric =

nanoeTM X is nano-sized electrostatic atomized water particles that are rich in OH radicals.

nanoeTM X is the next generation of nanoeTM technology and is generated from moisture in the air that contains highly reactive components known as hydroxyl (OH) radicals, which are effective at suppressing pollutants and odours.

4.8 trillion OH radicals / sec

How **nanoeTM** works?

Deodorizes Odours

nanoeTM X reaches odour in fabric

OH radicals break down odour-causing substances

Deodorizes smells in fabric

Inhibits Airborne and Adhered Pollutants

nanoeTM X reaches pollutants in fabrics

OH radicals take hydrogen away from pollutants

OH radicals transform hydrogen to inhibit the activity of pollutants

Helps maintain skin moisture

Using existing moisture already in the air, nanoeTM X hydrates the sebum (produced by sebaceous glands to lubricate the skin) on the skin to help prevent loss of moisture.

[28 days later] Leads to smoother, well hydrated skin.*

** 1nm (nanometer = 0.00000001m (one billionth of a meter))

The **5 healthy effects** of nanoeTM X purification technology

DEODORIZES

Odour

INHIBITS 3 TYPES OF POLLUTANTS*

Allergens

Pollen

Hazardous substances

MOISTURIZES

Skin & hair

As people become more aware of how polluted indoor environments affect their personal health, addressing poor indoor air quality is more important than ever. The minimal additional investment in clean air technology and healthy living spaces shows customers you care about their safety.

Whisper Air Repair is an ideal way to spot purify your space during off hours when your HVAC system is not operating; or for use in tight spaces, like conference rooms.

Build your reputation as a business that cares and watch your bottom line grow. WhisperAir Repair helps you promote health and well-being in every property.

The air you breathe should be one of the purest elements going into your body

EASY INSTALLATION & MAINTENANCE

WhisperAir Repair's compact, lightweight one-piece design makes installation quick and easy in remodeling, retrofits or new construction. Install plates hold the unit firmly onto sheetrock or ceiling tiles with no clunky brackets needed. Whisper Air Repair can be used with new or existing wiring. Panasonic recommends installation be tied into a constant run circuit to ensure optimal performance.

WhisperAir Repair offers an energy efficient, self-contained and maintenance-free device with no filters to change, ever. No worries, no hassles - just purified healthy air 24 hours a day.
